

Your chronic care lifeline

mynurse.ai/provider22

Offerings

Support chronic care patients remotely

myNurse helps you implement a Chronic Care Management program that takes advantage of new Medicare CPT codes that reimburse you for supporting chronic care patients.

Expand your reach with clinical staffing

Our interdisciplinary team of nurses, dietitians and social workers reviews patient data and guides them through your care plan to drive positive outcomes, keeping you updated every step of the way.

Turnkey implementation, no upfront cost

We identify and prioritize your highest-risk patients for earlier outreach and proactive engagement, offering health monitoring and streamlining reimbursement, all at no upfront cost.

Testimonials

Dr. Joe Kelada
Sutter Health IPA

"myNurse offers better management and control of diseases while providing convenience to patients."

Outcomes

Increased clinic capacity and access

By leveraging myNurse, our physician partners have seen a 39% increase in clinic capacity, allowing them to expand access to new patients and see more patients in-clinic.

Improved health outcomes

Patients enrolled in myNurse have lowered their average systolic blood pressure by 12 mm/Hg on average and 60% of patients have lowered their average blood sugar.

Better patient experience

Along with driving clinical improvements, myNurse has earned high customer satisfaction ratings from patient members, with 93% rating the program as "Very good" or "Excellent" and 80% staying on for six months or more.

Josephine Jugo
67-year-old chronic care patient

"The myNurse program is really easy and I like knowing my Wellness Coach is monitoring my health."
